New LNDTA website

Our Association's new website has started on 2016. There You can find important information about LNDTA activities, upcoming events, cooperation with ERA-EDTA, relevant treatment guidelines for health care professionals, recommendations for patients with CKD, etc.

Visit us at www.lndta.lt

/Day

- Joint Conference in transplantology together with Lithuanian **Transplantology Association, Vilnius, 27 April 2016**
- Conferences in two regions of Lithuania for general practitioners with focus on CKD screening and early detection

Raseiniai

Mazeikiai

Each year our Association joins forces for the WKD Campaign. WKD 2016 activities in Lithuania were focused on inborn and acquired kidney diseases in children, their risk factors, early detection and treatment, promoting healthy lifestyle for children and parents. Seeking for these goals LNDTA organised:

- National Conference for health care professionals "Social Medical Impact of Kidney Diseases in Children", 3 March 2016, Panevezys
- Prepared flyers with corresponding information for health care professionals, children and their parents
- Blood pressure measurement campaing in outpatient clinics and public recreational center
- Took lectures about kidney diseases and their risk factors for students in schools
- Numerous publications and TV interviews for raising public awareness

Prior to WKD events children were drawing kidneys. Here are a few of their pictures:

WKD flyers with pictures

and crosswords

Colourful baloons with WKD logo

Stickers with WKD logo

er Renal Center TRIO Lutsk (Ukraine) – Brest (Belarus) – Kaunas (Lihuania)

WKD materials for doctors

Informational flyers about evaluation of changes in urinalysis
